Tap here for settings

iPad(s) connect to the router via PoE

If we use the iPad we can save the dashboard space for high-quality HAM/CB Radio

Or a car Satellite Radio

These are booster antennas that can connect to the PepLink

<https://wiki.ezvid.com/best-cell-boosters-for-cars>

Will be interesting...probably looking at 4 external antennas for the LTE/3G Reception with the PepLink.

Plus 2-4 wifi antennas.
